The project provided a scalable model to reduce risks involved in artisanal fishing, contributing to the Sustainable Development Goals (SDGs) on food security, environmental conservation and community development. Timeline and funding. The project began in January 2018 and was funded until December 2018.

Tools for safe and sustainable artisanal fishing ...

Artisanal fishing may be undertaken for both commercial and subsistence reasons. It contrasts with large-scale modern commercial fishing practices in that it is often less wasteful and less stressful on fish populations than modern industrial fishing. Target 14.1b of Sustainable development goal 14 works to provide access rights to artisanal fishers on marine resources and markets.

Artisanal fishing - Wikipedia

Artisanal fisheries are traditional fisheries involving fishing households (as opposed to commercial companies), using relatively small amount of capital and energy, relatively small fishing vessels (if any), and making short fishing trips, close to shore, mainly for local consumption (FAO 2012).

Goal: Artisanal Fishing Opportunities : Ocean Health Index

The pressure on natural assets varies per resource, per region, and per type of fisheries. Artisanal fishers have developed a variety of fishing and non-fishing livelihood strategies to deal with variations in their social, economic, political and natural environment. 2.1.2 Artisanal fisheries in the case study countries
