Guide for All-Hazard Emergency Operations Planning

Disaster response and contingency planning is a responsibility at all levels of the organization. The International Federation recommends that National Societies and International Federation offices develop either a multi-hazard disaster response plan with hazard-specific annexes, or several hazard-specific contingency plans to cover high-risk disaster events.

Disaster response and contingency planning guide

- Send someone to meet the emergency responders to direct them to the injured person.
- Call 911 and update the emergency responders if there is any change in the victim's condition.
