Therapy (SFBT) is a short-term goal-focused evidence-based therapeutic approach which helps clients change by constructing solutions rather than dwelling on problems. In the most basic sense, SFBT is a hope friendly, positive emotion eliciting, future-oriented vehicle for formulating, motivating, achieving, and sustaining desired behavioral change.

Solution Focused Therapy

therapy is a simple idea but not easy to put into practice. It consists of only three basic questions which, if they can be answered, often lead to dramatic change. The task of the therapist is to ask the questions in a way that leads the client to discover the answers and this requires considerable skill.
